Nidek ARK 730	Tomey TL3000	Zeiss VISUREF 100
Nidek ARK 10000	Tomey RC800	
Nidek HandyRef K	Tomey TL900	

If we do not presently support your model, please reach out to us so that we may start working on the integration. We will require sample files and specifications, which our Technical Support team with the help of the equipment representative can collect. The new equipment's interface will then have to be programmed by our development team.

Whether new or already supported, please contact our Technical Support team (403-314-1322 ext 1 or support@visual-eyes.ca) for more information or to book an appointment time to integrate your new equipment.
